Suspicious Rumor About the Condition of the Whisky Trust-At Indianapolis Cereals Were Less Active and Lower.

THE BOND MARKET.

Railway Issues Were Weak Again on Sales of \$1,204,000. At New York, yesterday, money on call

was easy at 3@5 per cent. the last loan being made at 3, closing offered at 3. Prime mercantile paper, 64 @8 per cent. Sterling exchange was firm, with

actual business in bankers' bills at \$4.85 @4.85% for sixty days, and \$4.88@4.88% for demand.

The New York stock market was erratio in its movements throughout the day. There were sharp rallies at intervals, but the tendency of prices in the main was downward, owing to reports that the government crop report to be issued to-morrow will be most unfavorable, and the collapse of the Chemical National Bank of Chicago, which led to rumors affecting the credit of other financial institutions of that city. The decline at the start was equal to 3% in National Cordage, 21/2 in Sugar, and 1/2 to 2 per cent. in the remainder of the list. Before the expiration of the first half hour American Sugar suddenly rose from 8712 to 91, and a sharp rally ensued in sympathy, but the closing of the National Cordage transfer books, the rumors that the amount of the company's paper outstanding was far in excess of recent estimates and reports, which were subsequently denied, that an application had been made for a receiver for the Distilling and Cattle-feeding Company, plunged the market once more into depression. Compared with the final quotations of Monday, National Cordage preferred dropped 22 points, to 48; common 4% to 12½; Distilling and Cattle Feeding 3's, to 18½; General Electric 5¼, to 75¼; American Sugar 4%, to 85%. The losses in the remainder of the list were ½ to 2 per cent. The lowest quotations were touched after delivery hour. During the last fifteen minutes of business a rally of to 11/2 per cent, occurred, and the market left off steadier in tone at the rally. The sales aggregated 333,922 shares, of which 62,780 were unlisted.

Railway and miscellaneous bonds were weak. The sales were \$1,204,000. Alton & Terre Haute incomes declined 5, to 574; Evansville & Richmond tives 34, to 95; Richmond Terminal Trust fives 21s, to 34%; Toledo, St. Louis & Kansas City firsts 3. to 70. Government bonds were dull and State bonds were weak. Closing quota-Four per cent. reg. 11212 Louis. & Nash..... 70

"My dear, look down below," said Mr. Grandiose, as he stood on the bridge with his wife, and gazed at a tug hauling a long line of barges. "Such is life; the tng is like the man, working and toiling, while the barges, like women, are-"I know." interrupted Mrs. G., acridly, the tax does all the blowing, and the barges bear all the burden."

Practical Philosophy.

As long as fish bite Sundays people will

Local Crops Placed Low, but the Bull Energy Thought to Be Weakening.

Reports from Abroad Indicate that Continental Crops Are Getting in Better Shape, Causing Hesitation on This Side.

TRADING AT CHICAGO.

Corn and Cats Decline, but All Provisions Make Net Gains.

CHICAGO, May 9 .- Wheat to-day lacked the vigor and bull energy which distinguished it yesterday. It had important stimulus, but at the same time there were developments which counted decidedly against the price. The Illinois crop report was sensationally bad, showing immense destruction of winter wheat, the area being only 1,046,000 acres, against 1,767,600 acres last year, and the condition only 70, against 90 a year ago. Statisticians figured out that the promise is for only about 47 per cent. of last year's yield. Michigan dispatches were favorable, and this, taken in connection with Kansas report made yesterday, and similar private advices from Missouri, were regarded as very bullish. But to offset this came reports of generous rains in France and Austria-Hungary. immense shipments from the Baltic ports and some balting and hesitation in sales. There was also heavy realizing. Cudahy being a free seller and promptly meeting about all the demand, Eggleston sold liberally. The failure of the Chemical National Bank reported had some effect in checking the bull enthusiasm. The Vienna and Australian failures also cut some figure. Pardridge seemed to be a big buyer through brokers, and it is thought that his short line has been greatly reduced during the last few days. About noon Schwartz-Dupee got a special cable saying that while rain had fallen in France, it had come too late to do much good, and that French country markets were higher and prices improved some. There was a recovery before the close on some fresh reports of rust in the South, and a half belief that the rumor of 70 per cent. on the Missouri crop may be true. There was probably a little manipulation in it also. The government crop report on the condition of winter wheat is due tomorrow afternoon. Conservative traders are inclined to wait for it before doing much. The opening was \$ @1 so higher than yesterday's closing for July, but ruled weak and prices declined to 1 so below the top figure reached early in the morning, then recovered, advanced lc and closed ic higher than yesterday.

Corn was firm at the start and first trades were at 4 @ se advance, there being very fair buying by the sellers of the last few days. But the demand was soon satisfied and a large long line coming out and wheat selling off, the price worked down 4c. Prices railied 4@ sc later on, ruled steady and closed with a 4 @ 20 loss. The Illinois report would indicate that a large area is going to be planted this year, many wheat fields being already plowed up. The Iowa report also stated that with favorable weather there will be a large acreage pianted. A good deal of the selling was against purchases made in the West, Nebraska particularly.

Oats, in the beginning, were dull and weak. In sympathy with corn, prices declined 400 sc. Near the close the buying improved and prices advanced %@ bc. The close was steady, but at a loss of & @

Provisions were excited and higher early on continued light receipts of live hogs at the yards, and advanced prices. Light ofterings and moderate buying orders contributed to the strength. The same tactics were pursued as for some time past. Whenever the shorts tried to cover the market advanced rapidly, and when anyone tried to seil it dropped, the longs not earing to take the offerings. Some disposition among holders to realize caused a slight reaction, and then the market ruled steady for a time with a downward tendency. There was very little doing during the balance of the session, the market being in an almost stagnant condition for everything, and fairly steady. A more confident tone was imparted to the cash market on an improvement in the inquiry on both domestic and export account. Compared with last night the final prices showed a gain of 250 for pork, .25c in lard, and .124c in ribs.

Freights were steady with a light business at 1 so for wheat and 1c for corn to Buffalo, and 3c for corn to Kingston. Estimated receipts for to-morrow are: Wheat, 275 cars; corn, 160 cars; oats, 180 cars; hogs, 18,000. The leading futures ranged as fol-
